Dear Allison,

I am so nervous. Next week I am going away to my first summer camp where there will be boys as well as girls. Our camp teams will even have boys and girls together. Can you believe it?

Camp Piddywaddy sounds really exciting because we will get to spend a lot of time outdoors. We will be putting up tents, hiking, rock climbing, fishing, swimming in the lake, and learning how to row a boat. The whole camp lasts two weeks.

But what if I do something embarrassing in front of some of the boys at the camp? I would want to run and hide! I know I am probably just worrying too much over nothing, but still, wish me good luck!

I'll write you from camp and tell you everything that happens!

Hugs and kisses,
Mary

Dear Ms. Louise,

Today was my sweet little girl's first day of high school. She was very happy that she would finally meet her new classmates. However, when she woke up, she found that she had a big red pimple on her nose! She was so worried about it that she told me she didn't want to go to school. I knew that she felt embarrassed about having a big red zit on her face, especially when she was about to meet new friends and wanted to make a good impression. However, as a mother, I just couldn't let her miss the first day of school, so I made her go to school this morning. Did I do the right thing?

Worried Mother

Dear Worried Mother,

I think you made the right decision. Though her concern about making a bad impression on her new friends is understandable, she needs to learn that most people focus only on their own problems and don't

even notice *others*'. Her friends may not notice her pimple at all, and I think she will figure this out. Don't worry. When she gets home, just talk to her as usual. She will have a lot of exciting stories about her new friends to share with you tonight.

Ms. Louise
