Hi Sally,

I just received your letter. I feel sad that our relationship is coming to an end.

There will come a day when you will want to send and receive texts and emails and you will realize how useful I am. When your friends are all taking pictures with their smartphones, you might feel left out. Anyway, with all due respect, please understand that finding a good balance between your real life and me is your business—not your parents’ or your teachers’ or mine.

Although I am sad, I can understand what you said. I hope that you have a good life. If you need me, please remember that I will always be within your reach.

I look forward to the day when we can talk again.

Best wishes,

John the smartphone
