You are probably familiar with the "OK" hand gesture. It's made by connecting the thumb and first finger to make an "O." In many countries, it's used to say that everything is all right, or nothing is wrong, in other words. But in some countries, it can have a very different meaning.

Whatever you do, don't make the "OK" sign in France or Belgium. There, this gesture is used to mean "zero," which could imply\* to someone that they are worthless. Don't use it in Brazil and many other South American countries, either. There, this sign is an insult\*. In the Middle East, this hand signal is not "OK" either. It is the "evil eye," used when one person wants to put a curse\* on another.

Of course, sometimes this signal is completely harmless. In sign language, for example, it can mean "housefly." It can also be used to represent something small. Still, be careful where and how you use it. The last thing you want to do when you are traveling is to make the locals angry, after all.

In culture class, Ms. Creed asked students to share instances of culture shock they have experienced.

Nancy

Once when I was traveling in France, I made a mistake. Though I'd seen scenes in foreign movies of people greeting others by hugging and kissing them, I was still astonished when I was grabbed and then kissed on the cheek by a French girl! All I could do was stand still and blush with embarrassment. I must have acted like a fool then. It was indeed a case of culture shock for me!

I've been there. In my first week in Spain, I was always wondering when I could have dinner. Spaniards have an unusual daily schedule! They often skip the morning meal or have it no earlier than 10:00 a.m. They are used to taking a long afternoon nap, and then they end work around 8:00 p.m. Guess when they have dinner? Nine, ten, or even midnight! Thus, you shouldn't get up early in the morning, or you'll receive no breakfast and may become hungry and angry! If you're planning to travel to Spain, I suggest that you bring snacks and instant noodles.

Edward
